

Treatment Facilities Chair May Report

Talked with Steve about what we could do for the Haven in Shakopee and for right now the greatest need seems to be getting meeting directories into the hands of interested people so my goal is to get some of the district meeting booklets and at least 20 where and when into his hands as soon as possible. Steve was also going to check with the Haven to see if they would use an AA pamphlet rack. I'm still waiting on the DCM and Treasurer to finish their work on the budget to see what funds are available to allocate toward this kind of work.

On the bright side, the district did get a case of Spanish language big books and I have brought some to the Five Stars Treatment Center and to two of the meetings in Chaska to help make them available to the Hispanic community.
